

Rishiraj Debnath

Full-Stack Web Developer

Kolkata, West Bengal, India rishirajnatj@gmail.com +91 8240992946 [github.com/13507-IN](#) [LinkedIn](#) [Portfolio](#)

PROFILE

Web developer building responsive React interfaces and practical backend services. Founded CampusKart, a live student marketplace, and created web projects spanning browser-based design tools, AI-assisted workflows, and authentication APIs. Currently pursuing a B.Tech in Electronics & Communication Engineering.

SELECTED WORK

CampusKart — Founder & Developer

[campuskart.space](#)

- Built a campus marketplace experience for student listings, direct messaging, and events.
- Developed a product centered on student profiles and campus community interactions.

Funfy — Sticker Design Studio

[Source code](#)

Next.js · TypeScript · Fabric.js

- Built a responsive storefront and browser editor for uploaded artwork, text, shapes, layers, and PNG export.
- Added a local cart persisted with IndexedDB and a localStorage fallback.

InceptIQ — Startup Idea Validator

[Source code](#)

React · Node.js · Express · Gemini API

- Built an idea-analysis workflow covering originality, competition, market viability, risks, and next steps.
- Presented results with charts and downloadable PDF reports.

Rishiraj Auth — Authentication API

[Source code](#)

Node.js · Express · Prisma · PostgreSQL · Redis

- Implemented registration, login, JWT refresh, email verification, password reset, and Google OAuth endpoints.
- Added role-based access, tenant-aware API keys, and documented setup and routes.
